

Product Specification: Type TP - Telescopic Platforms

Hussey Seatway Ltd

Description

Hussey Seatway Type TP, theatre quality telescopic platforms have been developed in the UK specifically for use in theatres and performing arts facilities where a stiffer, more solid feel to the structure is required and where comfortable, full theatre chairs need to be installed. A range of seat types can be specified but the 'Gallery 2' PC Chair and the 'Arts' PC Chair are typical.

The TP platform systems can be open and closed manually or by integral power systems that enable the transformation of empty spaces to seated performance venues within minutes.

Types:

- TP- F** Wall and floor attached.
- TP- R** Recessed into wall space.
- TP- M** Mobile units for fully flexible positioning. (Can be moved on castors or air bearings.)
- TP- T** Travelling system. (A complete block that can be powered into a new position.)

Applications

TP Telescopic seating is suitable for a range of applications that require both seated spectators and the multi-purpose use of floor space.

For example;

- Theatres and Arts Centres
- School performing arts spaces
- Conference and Exhibition Halls
- Arenas

Standard Dimensions

Row Rise 260, 280, 300 & 320mm.

Row Depth 850, 900 & 915mm

Closed Depth = Row Depth + 320mm.

Closed Height = (No of rows x Row Rise) + 190mm.

The Hussey Seatway TP system is designed to be customised and re-engineered easily, so please contact our Technical dept. if these dimensions do not fit your requirement.

Features

- Distinctive fully welded platform design/
- Automatic, row to row, safety locking
- Parallel guidance system for straight line operation.
- Stiff and dynamically correct under-structure that features Hussey Seatway's unique 'space frame' construction methods.
- Row to row, parallel and vertical, column interlock.

Accessories

- Front, side and rear handrails.
- Power assist and integral power operation systems.
- Front fascias and panel systems.
- Access steps and stair units.
- Moving systems for Mobile units.

Technical:

Please contact our Technical department for a full specification and for application drawings. We offer a free seating solutions design service and welcome the opportunity to input the design of your facility. Please also see overleaf for basic drawings and technical information.
