

LT SYSTEM – available in fixed applications

Hussey Seatway LT seating is the perfect choice for lecture theatres in schools, colleges and universities. The system comprises an under-structure, which can be customised to suit any room, including curved, tapered and faceted geometries. Our Integra, Decra and Gallery 2 chairs have been adapted to work with the system. A range of finishes are available for the writing edges and modesty panels. Various electrical and communication devices can also be incorporated into the system.

APPLICATIONS

LT lecture seating is suitable for most types of learning facilities where a seated audience and a fixed writing table are required. Invariably custom engineered to suit the unique requirement of each space.

FEATURES

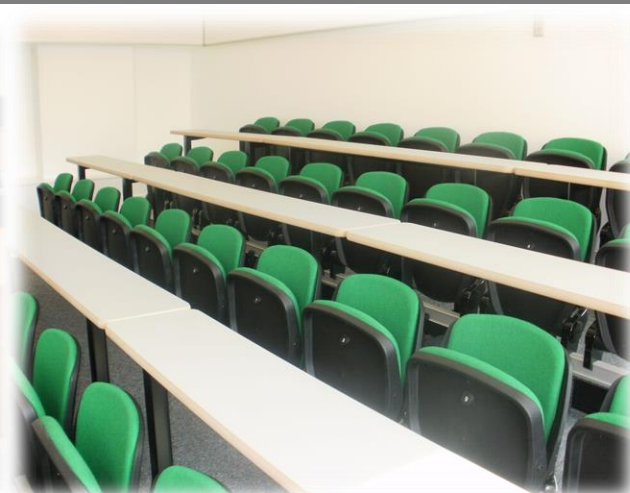

- Stiff and dynamically correct steel under-structure
- 24mm thick construction plywood floors and risers
- Carpeted floors and risers are standard
- Various aisle trims and intermediate step designs
- Lacquered, wood veneer or laminate finished table tops
- Optional modesty panels
- Robust steel seat/table frame supports
- High quality, powder coated finishes to choice
- Seating and writing ledges can be fitted to concrete or timber tiers provided by others

STANDARD DIMENSIONS

- Row Rise - from 100 to 510mm
- Row Depth - from 900 to 1100mm
- Table Height - 740mm (typical)
- Table Width - from 280 to 350mm

TECHNICAL

Please contact our Technical department for a full specification and for application drawings. We offer a free seating solutions design service and welcome the opportunity to input the design of your facility.
