- Available with storage & transportation trolley

FINISHES

- The seat frame is available with black or silver powder coat
- Available with storage & transportation trolley

TECHNICAL

Mesh One folding chairs are provided with a 10 year warranty on the steel chair frame and 3 years on the structural nylon seat/chair back and RipStop mesh upholstery. The shape and construction of the chair provides stable, positive indexing when stacked. Stacking density 15.2cm for the first chair, each additional chair is 6.6cm. Mesh One chair construction utilises recycled steel, nylon, and polypropylene making the chair more than 90% recycled based on weight of contributed materials.
